92>. This manuscript is dedicated to our late friend and colleague Dr. Wanja Mertens. Funding {#FPar1} ===== This study is supported by a grant from the Public Health Service. Availability of data and materials {#FPar2} ===== Not applicable. All authors read and approved the final manuscript. Ethics approval and consent to participate {#FPar3} ===== This study was approved by the Institutional Review Board of Rush University Medical Center. Consent for publication {#FPar4} ===== Competing interests {#FPar5} ===== The authors declare that they have no competing interests. Publisher's Note {#FPar6} ===== Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations. Okay so before we begin this is my first time trying a tutorial so I am a bit nervous. Let me know what you guys think! Sorry for the background image being so blurry. First thing first we are going to be adding the clothes that you are going to make. This includes a top, bottom and a jacket. You can get them at Amazon. The item number is 4585091488584. I got the jacket for under a buck and the top for free. Now that we have the clothes we need to add some details and add some coloring to the clothes. I would advise not coloring your clothes because it can look messy and make your color scheme less clean. The details I use are a 1 cm pen and gel pens. A basic set up is 2 colors and a thicker set up is 3 colors. You can always add more but I don't know how it would look. Now that you have your colors you need to add some details to your clothes. You can go in and just add details on each clothes but I would recommend painting each color separately. Once you do this you can add details to the colors. You can easily add on your own design by just putting it in a paint program and making it bigger or smaller. After you do that you can go in and add on more colors but I'm not sure if it will look good. In 1858, the American inventor, James Samuel Stephens, patented a "Carriage and Stationary 82157476af
